TO PACKARD DISTRIBUTERS AND DEALERS

In compiling this parts list we have endeavored to arrange in the most convenient manner, necessary data for ordering repair parts.

The text is indexed both alphabetically and numerically, with illustrations distributed so that each cut is in close relation to its text. Wiring diagrams are incorporated, which not only show the method of wiring these cars but also list the piece numbers of all units used in the electrical system.

Repair parts for some accessory units are herein listed and illustrated under the manufacturer's own piece number. Distributors should order these from the Packard factory and dealers should order from their distributor, using the manufacturer's piece number when no other number is shown. Customers should not be sent direct to the accessory manufacturer or their local agent for service.

ORDERING PARTS

Dealer Parts Orders should be sent to Distributors
Distributor Parts Orders should be sent to Packard Factory

Use only standard Distributer's Sundry and Part Order
forms No. D-19.

Correct "charge to" and "ship to" names and addresses
should be shown on every order.

Give piece number, name and quantity required.

Always advise motor or vehicle number.

State definite shipping instructions, i.e., parcel
post, express or freight, etc.

Give explicit instructions how cases are to be marked.

Detail ordering instructions as outlined in Technical
and Trade Letters should be adhered to in all cases.

In ordering utility parts always specify finish de-
sired.

Many special notes appear after the part names showing
some of the parts listed herein being used or not used on
certain models or body types and these notes should be
watched very carefully when ordering from this book.

DOOR

All doors must be adjusted to each respective body. To obtain satisfactory replacement of doors, it is advisable to return the damaged door to be repaired, if possible. If this cannot be done, the customer assumes the responsibility of the new door being a satisfactory fit. Specify on all orders the upholstery material, color and striping.

DOOR

All doors must be adjusted to each respective body. To obtain satisfactory replacement of doors, it is advisable to return the damaged door to be repaired, if possible. If this cannot be done, the customer assumes the responsibility of the new door being a satisfactory fit. Specify on all orders the upholstery material, color and striping.

DOOR

All doors must be adjusted to each respective body. To obtain satisfactory replacement of doors, it is advisable to return the damaged door to be repaired, if possible. If this cannot be done, the customer assumes the responsibility of the new door being a satisfactory fit. Specify on all orders the upholstery material, color and striping.
