To

PACKARD DISTRIBUTERS AND DEALERS

Subject

KELCH HEATER INSTALLATION

Gentlemen:

The Tonneau Carpets in all 640 and 645 models have an extra thickness of felt underneath them.

When installing the Packard Kelch Heater the workman should cut away one inch of the felt only all around the register hole in the floor board.

This procedure will eliminate any difficulty that might be encountered in making a neat fit of the polished carpet ring on the register.

Yours very truly,

PACKARD MOTOR CAR COMPANY
