Subject BUMPER PARTS SUPPLEMENT

Gentlemen:

We are attaching one copy of a parts list supplement on Packard bumpers. This list covers all Packard bumpers except the One Twenty which are already carried on the One Twenty Parts List.

Effective immediately all Packard bumpers and detail parts will be stocked at the factory as standard Packard parts and will be identified by parts piece numbers, thereby discontinuing the PA numbers. Henceforth, all bumpers and bumper parts should be ordered as standard Packard parts using only the new piece numbers assigned.

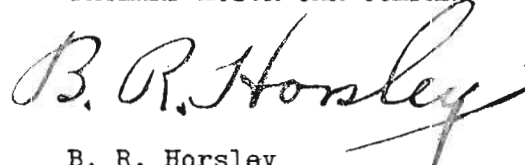

PLEASE DO NOT INCLUDE BUMPER PARTS WITH ORDERS CARRYING ACCESSORY ITEMS.

In order to assist in converting such items in this group that formerly were identified by PA numbers into standard replacement parts, both the old PA number and the corresponding new Packard piece number are shown.

Much loss of time and serious shipping delays may be avoided by consulting this and employing only the new piece numbers assigned on all bumper parts.

Yours very truly,

PACKARD MOTOR CAR COMPANY
