To PACKARD DISTRIBUTERS AND DEALERS

Subject WHEEL EQUIPMENT FOR PACKARD TWIN SIX MODEL 905-906 CARS  
RADIATOR SHELLS FOR PACKARD LIGHT EIGHT MODEL 900 CARS

TO BE NOTED AND INITIALED BY

Gentlemen:

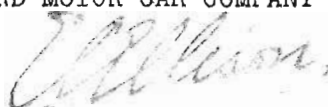

It has been decided to use the 18" wheel with 7.50 tire as standard for Twin Six cars. Wire wheels will be standard equipment, with wood wheels optional. Steel wheels will be available only with 19 x 7 inch tires.

Please review the Twin Six orders that you have with us calling for steel wheels and change the specifications with us to either wire or wood wheels, as you may require.

Starting with April shipments, we have decided to make the chromium plated radiator shell on Packard Light cars optional at no extra charge. When specifying your cars for April and later months, please indicate whether you want painted or chromium plated radiator shells.

Yours very truly,

PACKARD MOTOR CAR COMPANY
