**DETROIT MICHIGAN**

August 18, 1926

**To** PACKARD DISTRIBUTERS AND DEALERS**Subject** COMBINATION STOP, TAIL AND BACKING LIGHT

TO BE NOTED AND INITIALED BY

**Gentlemen:**

Already we have received requests for a combination Stop, Tail and Backing Light for early Sixes and Eights. The latest cars carry such a unit as standard equipment and no doubt you will have calls from owners of earlier Packards, because this unit is a real, neat and efficient device.

We have prepared this combination light in one assembly under PA-1805, and it can be installed on First and Second Series Eights as well as Second and Third Series Sixes. The installation requires about an hour and the Suggested List Price attached is fifteen dollars.

Without doubt you will have calls for these combination lights, and we suggest therefore, that you place an order at once so that you will be ready to meet the demands.

Yours very truly,

PACKARD MOTOR CAR COMPANY
