Gentlemen:

The Packard Eight, model 136-143 and 236-243 cylinder heads with the spark plug holes in offset position, supplied heretofore on no charge basis as outlined in our letter of January 29, 1927, can no longer be furnished. Our stock on this type head is exhausted and all future orders for these will be filled with the Turbo type head and billed at the regular net price.

This letter therefore cancels the no charge arrangement for the Packard Eight cylinder head with the spark plug holes in offset position.

Very truly yours,

PACKARD MOTOR CAR COMPANY
