| | |
| | |

Gentlemen:

Part Two of the Service Manual is being reprinted and new sections will be mailed as completed.

The pages of each section are numbered separately starting from number one. The sections should be placed in the Manual in alphabetical order in back of the index tab marked "Part Two.

A new index for Part Two will follow showing the location of each section and the number of pages. This will facilitate locating information and will enable us to reprint sections as required.

Please designate some one and hold them responsible for seeing that these sections are correctly placed in your Manuals and that a letter is sent me showing how many additional Manuals are in use or in stock so that the correct number of additional copies may be sent.

Yours very truly,

PACKARD MOTOR CAR COMPANY
