(Attention of the Service Manager)

Subject STANDARD SIZES AND ADJUSTMENTS FOR SERVICE MANUAL

TO BE NOTED AND INITIALED BY	

Gentlemen:

Attached are replacement sheets on Standard Sizes and Adjustments for the Service Manual.

Please do three things about this!

1. See that these are placed in Part Two of your manual behind the index tab with the same heading.
2. Make certain that this information is carefully studied by your contact men and those who will use it.
3. Write me a letter stating how many additional copies are required for manuals in use in your organization.

Very truly yours,
