PACKARD MOTOR CAR COMPANY • DETROIT 32, MICHIGAN

50P-44
Dealer 42
December 14, 1950

To: ZONES AND DEALERS

Subject: 22ND AND 23RD SERIES ROTARY ANTENNA

Due to the discontinuance of production facilities the 22nd and 23rd Series Rotary Antenna (PA-394828) is no longer available.

In a good many cases, however, replacement of the entire equipment or assembly is unnecessary and minor repairs can be made by replacing only such parts that have become damaged or failed in operation.

Detail parts have been made available in limited quantities that will enable you to service those Rotary Antennae now in use and as you will note from the list attached, they are the items that commonly require replacement.

Review your requirements and order from your Zone warehouse in the usual manner.

Very truly yours,

J. A. Carr
J. A. Carr, Manager
Parts and Service Department

JAC:bjm
ATT.

P.S. The 22nd and 23rd Series Vacuum Antenna (PA-422011-fender mounted) is still available.

J. A. C.
