Service Bulletin

Date

8-28-33.

To:

ALL BRANCHES AND DEALERS,
MANAGERS AND SERVICE MANAGERS.

Subject:

ELEVENTH SERIES MOTOR OIL - EIGHT CYLINDER MOTORS ONLY.

The factory recommends the use of an S.A.E. #20 motor oil in all Eleventh Series cars for driving down to approximately forty-five degrees above zero.

On the basis of the new design of oil circulation and oil cooler with full flow purolator, an oil of a higher rating than S.A.E. #20 should not be used.

Will you see that your demonstrators are serviced with this oil and that you have a stock on hand to take care of your customers requirements?

We are prepared to furnish you Packard Crystal Motor Oil S.A.E. #20 on the basis of the same price you have been paying us for your #30 and #40 oils.

Please order this material out in the regular way from our Accessory Department.

N. H. Peterson,
General Manager of Service.
