## Service Bulletin

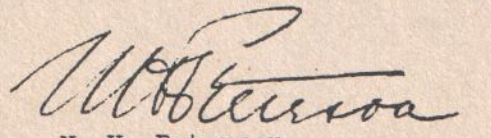

Date 9-1-33.

To: ALL DEALERS  
Subject: FLAT RATE OPERATION PRICE INCREASE

Effective today, the flat rate prices of repair operations shown in the Manual are being raised ten per cent on the labor in the operation.

Please do not make the mistake of simply raising the total operation ten per cent for, in that case, you would be raising your parts prices without justification.

The number of hours charged in the operation is shown in the column just to the left of the price and by using this figure it should not be difficult for you to increase the labor involved in that particular operation ten per cent and quoting the operation to the customer accordingly.

N. H. Peterson,  
General Manager of Service.
