

No. 9

Packard—Chicago

Service Bulletin

Date 2-6-33.

To: ALL DEALERS AND BRANCHES:

Subject: RETURN GOODS

In making application for credit on return goods, it is absolutely essential that the motor number, delivery date and actual mileage of the car be shown and if the part is not an original installation part but one that replaced a similar part, the date of installation and the number of miles the car was driven must be shown on the credit request.

Some points have become lax with respect to any one or several of the above mentioned items and credit will not be allowed unless this information is furnished on the application.
