SELL AT A PROFIT

IF YOU HAD WINGS, YOU COULD DO A LOT OF THINGS.

The most important of these is to make money. We refer to windshield wings for both open and closed cars -- they insure more comfortable driving in Summer and winter.

The new PACKARD WINGS for closed cars are very attractive as well as being quickly and easily installed without in any way marring the body.

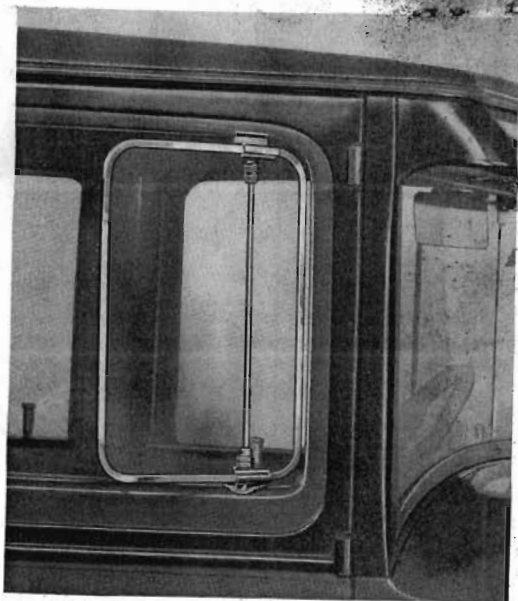

Yours very truly,

PACKARD MOTOR CAR COMPANY

## *The Packard Biflex Window Wing*

*A* DISTINCTIVE design of closed car wing that may be attached without drilling the body. It may be swung inward or outward to any desired position thus controlling and utilizing air currents to provide comfortable ventilation.

In addition to their ventilating advantages, in their chromium-plated metal frames they add to the beauty and appearance of the car.

*Packard Biflex Windows are available  
only through Packard Distributors and  
and Dealers*
