

Dealer 47D-22
August 22, 1947

To: REGIONS, ZONES AND DEALERS

Subject: TOOL CHECKS

Many Packard Dealers have long wanted a simple system that would enable them to maintain a record of special tools issued to mechanics.

The attached sheet will provide a solution to the problem. Each tool check has the Dealer's firm name stamped on it together with the number of the mechanic to which it is assigned. The loss of one or two special tools may cost more than a complete set of tool checks for each mechanic in the shop.

Orders should be placed directly with the Dealers Supply Company in Detroit. Use the attached order blank to avoid errors in ordering.

Very truly yours,

E. D. Longenecker
Asst. Parts and Service Manager
