January 22, 1948

To: REGIONS, ZONES, AND DEALERS

Subject: ENGINE STAND AND DOLLY

Attached is Packard Service Station Equipment Bulletin No. 1, which fully describes and illustrates the Engine Stand and Dolly that have been designed especially for use with Packard engines. Current prices are quoted.

These stands have been in use by Packard service stations since 1945 and mechanics are more than satisfied with the way they help them when overhauling an engine after removal from the chassis.

This equipment will not only expedite the work, but the stand and dolly make an important contribution to bettering mechanics' working conditions, efficiency and quality of work will be improved.

Order one or more stands and dollies now. The number required, of course, depends upon the amount of major engine overhaul work your shop is doing.

Order direct and make check payable to K. R. Wilson, 215-17 Main Street, Buffalo, New York.

Very truly yours,

N. A. Lull
Service Technical Manager
