DATE Feb. 21, 1934

We have had in operation for over five years a service exchange crankcase and crankshaft assemblies. It will be continued as described in Technical Letter No. 1922. During this five-year period, however, there has accumulated a surplus of crankcase and crankshaft assemblies, as well as a number of detail crankshafts and crankcases. Special close-out prices have been assigned which make them even more attractive than the original exchange rate. No material should be returned since no credit is allowable on the models listed below. Get your orders in early, because our supply of certain models is limited.
