Stores Manager

DATE March 20, 1935

In response to numerous requests for additional Twelfth Series equipment adaptable to earlier models, we have developed a motor high tension cable tube and cable assembly for the 9th, 10th and 11th Series Twelves.

All of the advantages of the Twelfth Series ignition wiring system have been incorporated into these new equipments, in fact many details are standard Twelfth Series parts. They are protected ignition wiring installations and each one includes a new distributor cap, new cable tubes and new high tension cables with all the necessary attaching parts. These equipments can readily be disposed of whenever spark plug cable replacements become advisable.

<u>PIECE NO.</u>	<u>NAME</u>	<u>MODEL</u>	<u>LIST PRICE</u>
B-225739	Motor High Tension Cable Tubes and Cables Equipment	905-6 1005-6 1107-8	\$10.00
