APPOINTMENT OF General Manager, Service Manager
Stores Manager

DATE April 15, 1935

This bulletin cancels and supersedes Trade Letters T-2643 and T-2643-A and all other letters on this subject.

Herein are summarized all gasket equipments as furnished by the factory for replacement on all Packard cars from the 426 through the One Twenty. Each set is packed in an individual container which lends itself readily to over-the-counter sales, as well as in conjunction with parts requiring gasket replacements. If you have not already investigated these gasket sets, we urge you to do so now and go after the gasket business that may be going elsewhere.

MOTOR MANIFOLD GASKET SETS

Each of these include all the inlet and exhaust-to-manifold gaskets, an exhaust pipe flange gasket and a carburetor gasket.
