DATE May 2, 1935

This Bulletin cancels and supersedes Trade Letter T-2674 dated June 15, 1934, and all other letters on this subject.

A surprising amount of business that might not otherwise be obtained has accrued from the promotion of sales of related parts over the counter and on the sales floor. The motor fan belt and radiator hose equipments listed below fit very nicely into this progressive sales idea. Each of these equipments include a fan belt or a pair of fan belts as occasion demands, both the inlet and outlet hose, as well as all radiator hose clamps. Each group is packed in a neatly labeled individual container. There is true economy for your owner and an opportunity for you to expand your parts sales volume.
