and Stores Manager

DATE May 15, 1935

This Bulletin cancels and supersedes Trade Letter T-2681 issued August 23, 1934 and all previous letters on this subject. It is important that you change all your records on the piece numbers involved to agree with the latest price quotations.

The packing of brake lining sets with rivets in individual containers has met with favor in the service field and we are continuing this practice to include the One Twenty model. There is considerable saving in time spent in consulting parts lists and price schedules by ordering brake lining in sets. Your parts discount is indicated by the letter preceding the piece number.
