August 24, 1949

TO: REGIONS, ZONES AND DEALERS

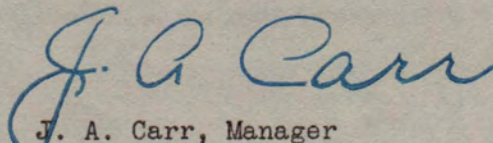

Subject: ULTRAMATIC DRIVE UNIT NUMBERS

All Service Technical Product Reports, letters, wires or telephone calls pertaining to Ultramatic Drives should supply the unit number stamped on the rear end at the left side of the case as well as the motor and vehicle number of the car.

The unit number permits quick identification and might affect the recommendations made for servicing the unit or the parts to be supplied.

Should it be necessary to return any complete units or parts, please add the unit number after the part name on the RFA.

Very truly yours,

J. A. Carr, Manager  
Parts and Service Department
