To: ZONES AND DEALERS

Subject: ULTRAMATIC DRIVE AND OVERDRIVE HOUSINGS AND  
BUSHINGS

Service bushings for Ultramatic Drive and overdrive housings are now available. The necessary removing and replacing tools have been made available. The tools and their uses are described in Service Counselor Vol. 24, No. 11 of November, 1950. The housings referred to should be serviced in the field using the bushings listed in the same issue of the Service Counselor.

Orders for complete housings should not be issued for those cases where replacement bushings can be used.

Yours very truly,

  
J. A. Carr, Manager  
Parts and Service Department
