Subject: ULTRAMATIC DRIVE OIL COOLER
23RD SERIES

A new Ultramatic Drive oil cooler kit has been released for service for the 23rd Series Ultramatic equipped cars.

The complete installation instructions are included in each kit, part number 436393. In the event of a lower radiator tank oil cooler tube failure on a 23rd Series car and still owned by the original purchaser, credit will be allowed for the kit and a labor allowance of 3.2 hours on an R.F.A. in the usual manner up to 25,000 miles. The four flexible tubes that were removed must be returned with the R.F.A. and an R.F.A.A. must accompany the R.F.A.

Very truly yours,

J. A. Carr, Manager
Parts and Service Department
