To: ZONES AND DEALERS
Subject: INSTRUMENT PANEL PAINT SCHEME - 55TH SERIES

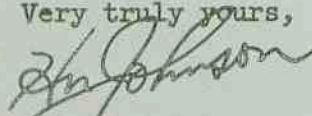

In the near future, Air Conditioning Kits will be available for field installation. The cold air outlets are to be mounted in the upper section of the instrument panel and should be painted to match the instrument panel.

The following body lacquer colors are used on 55th Series instrument panels and are available through your warehouse:

<u>SCHEME</u>	<u>NAME</u>	<u>DESCRIPTION</u>
C	Emerald	Dark Green
F	Sapphire	Dark Blue
H	Gray Pearl	Dark Gray
J	Fire Opal	Red
K	Topaz	Brown
L	Turquoise	Light Blue
R	Sardonyx	Grayish Red
V	Onyx	Black

NOTE: When installing air conditioning units, we recommend using "Gasoil" at all joints and connections where Freon leaks might occur.

Gasoil can be purchased at most any Refrigerator Service.

Very truly yours,

H. N. Johnson
Assistant Service Manager
