

SERVICE LETTER

SOUTH BEND 27, INDIANA

SUBJECT ESSENTIAL SERVICE TOOL NO. J-4830-01 IN 1958
MODEL STUDEBAKER-PACKARD ESSENTIAL SERVICE
TOOL GROUP

NUMBER SP-3

DATE February 11, 1958

Our tool supplier, Kent-Moore Organization, Inc., reports that a small quantity of tool number J-4830-01, Transmission Extension Housing Seal and Bearing Remover, used on T-86, T-96 Standard and Overdrive Transmissions and Flightomatic Transmission, shipped to dealers, is improperly machined. The improperly machined tool can be readily identified by the numbers J-4830 or J-4830-A stamped on the tool.

You should immediately examine the Transmission Extension Housing Seal and Bearing Remover J-4830-01 in your inventory and, if it has the number J-4830 or J-4830-A stamped on the tool, it should be returned to

KENT-MOORE ORGANIZATION, INC.
1501 So. Jackson Street.
Jackson, Michigan.

The package must contain your dealership name and address to facilitate handling. A new tool, number J-4830-01, will be sent to you at no additional charge.

DO NOT RETURN ANY TOOLS STAMPED J-4830-01.

Roy B. Bender
General Service Manager.
