

PACKARD MOTOR CAR COMPANY

DETROIT MICHIGAN

March 7, 1932.

To: Packard Distributers and Dealers.

Subject: Optional Paint Schemes and Standard Upholstery for Packard Light Eight Model 900 and Twin Six Cars.

TO BE NOTED AND INITIALED BY	
<i>[Signature]</i>	

Gentlemen:

This letter cancels Trade Letter T-2551 issued January 9th, 1932.

Following is a complete list of paint schemes that are now optional subject to conditions mentioned later in this letter for Packard Light Eight Model 900 and Twin Six Cars.

You will note we have increased the color option line to include two new light color cars known as schemes "H" and "Y", and have adopted this entire color option line for the Twin Six. The detail specifications for schemes H and Y are given below. These colors will be available to distributers for March shipment and thereafter.

The standard broadcloth for Packard Light Eight enclosed cars, except coupe roadsters, will be No. 290-1303 body cloth with No. 291-1304 for sidewalls for paint schemes C, D, E, H, M and X. For schemes A, B, F and Y cloth No. 290-1305 for body cloth with No. 291-1306 for sidewalls.

For Twin Six enclosed cars except coupe roadsters, convertible sedans and convertible victorias, D-739 cloth will be standard for schemes A, B, F and Y, and D-743 cloth for schemes C, D, E, H, M and X. These cloths to be standard for cars produced in March, after which the following cloths will become standard. D-739 cloth for scheme B. D-743 cloth for schemes D and X. 2075-739 cloth for seats and backs on schemes A, F and Y, balance of car 2076-739, plain. 2075-743 cloth for seats and backs on schemes C, E, M and H, balance of car 2076-743, plain.

The following leathers are standard for open cars, coupe roadsters, convertible sedans, convertible victorias and the rumble seats of 2-passenger coupes. Colonial Grain No. 739 for scheme A, No. 704 for schemes C and X, No. 800 for schemes D and E, No. 714 for schemes B and F, and No. 744 for schemes M, H and Y.

The rumble seat only of 2-passenger coupes will be trimmed standard in leather. Coupe roadsters, convertible sedans, convertible victorias along with all open cars, will be upholstered standard in leather throughout.

Windshield frames on all enclosed cars, except coupe roadsters, convertible sedans and convertible victorias and on the Packard Light Eight 2-coupe, for paint schemes B, C, D and X will be black, for paint schemes A, E, F, H, M and Y the color is to be the same as the window reveals. Windshield frames on open cars and coupe roadsters, convertible sedans and convertible victorias and on the Packard Light Eight 2-coupes to be chromium plated.

The standard color for wire wheels on all paint schemes will be black, except for color schemes A, E, F, H, M and Y, where they will be painted to harmonize with the color schemes. Special orders to be issued when desired otherwise. Steel and wood wheels will be painted to match panels as indicated. Special painted wood and steel wheel jobs will be brought through on special orders.

Where leather is used in Twin Six sedan limousines, colonial grain No. 546 will be standard in all paint schemes as well as all special paint jobs unless otherwise specified.

The exposed metal parts of partitions of the Twin Six sedan limousines will be painted black.

Convertible Victoria trunks on Twin Six cars to be painted same color as body panels.

Where paint schemes A, E, F, H, M and Y, as specified below, call for a chassis paint in color to harmonize with the body panels, there will be an extra charge of \$45.00 list on the Packard Light Eight and \$55.00 list on the Twin Six. These paint schemes are also available on special order to take care of a particular sale with a black chassis at no extra charge. Black chassis on paint schemes A, E, F, H, M and Y are not considered standard and will be built on special order only, which will require three to four weeks. Cars for demonstrators and stock specified in these color schemes should call for a painted chassis.

The radiator shell and radiator shell grids on all Model 900 cars are to be painted the same color as the body below moulding. The radiator shell on Twin Six cars is to be painted the same color as the body below moulding, while a chrome shell is optional at no extra charge. The winterfront is standard chrome plated while a painted winterfront is optional at no charge.

The body above the moulding on Model 900 cars will include the rear quarter body moulding extending to the rain gutter, the rain gutter and windshield stanchion. The lower body base moulding will include the rear body skirt over the gas tank.

For the purpose of these specifications, convertible cars will include coupe roadsters, convertible sedans and convertible victorias.

The paint manufacturers shown below indicate the color selection only and do not represent source of supply.

*There is an extra charge of \$45.00 list for special painted chassis on the Packard Light Eight Model 900 and \$55.00 list on the Twin Six.

The prices for special paint outlined in Trade Letter T-2554 are not effective in the case of Pearl Essence or other unusual finishes. Because none of the paint manufacturers have guaranteed these unusual finishes to date, we, of course, cannot guarantee them either. Prices for these finishes will be furnished on special request.

Distributers should specify by the first of the month preceding the month in which the cars are to be shipped, the colors, types and special equipment desired on the cars covered by their total allotment.

Yours very truly,

PACKARD MOTOR CAR COMPANY.

E. C. ELLISON,
Distribution Manager.
