To **PACKARD DISTRIBUTERS AND DEALERS**Subject **PACKARD BODY GLASS BOOKLET**

TO BE NOTED AND INITIALED BY

Gentlemen:

It is highly important that Packard body non-shatter glass replacements be made with the same quality of material as the original equipment. If responsible service is not available in your locality, we suggest that you order non-shatter glass direct from us.

The identification of our glass equipment is not always easy to locate, so, in order to assist our service men in this work, we have compiled all our Seventh, Eighth, Ninth, and Tenth Series non-shatter glass equipment in book form. We believe you will find it a very handy reference.

The complete glass equipment for each type of Packard body is shown by piece number, together with our suggested list price for each piece in each zone. Body types are arranged in numerical order and an index by chassis models appears in the front. The last three pages are devoted to a numerical list of piece numbers showing their interchangeability. A blank space has been provided for your convenience to jot down cost data. This information is easily obtained by deducting from the figures shown your customary parts discount.

We are attaching one copy of this new service booklet. Additional copies will be mailed you at a small charge of fifteen cents each.

Yours very truly,

PACKARD MOTOR CAR COMPANY
