To PACKARD DISTRIBUTERS AND DEALERS

Subject MOTOR GASKET EQUIPMENTS

TO BE NOTED AND INITIALED BY	

Gentlemen:

This letter cancels and supersedes Trade Letters T-2639 and T-2643 and all other letters on this subject.

Herein are summarized all gasket sets, as furnished by the factory for replacement on all Packard cars from the 526-33 through the Eleventh Series. In the following paragraphs is a description of the different groups and the purpose for which each is intended.

Each set in each group is neatly packed in an individual box which lends itself readily to over-the-counter sales, separately and in conjunction with parts that require gasket replacements. Attractive prices have been assigned that should build up your gasket sales to a very substantial figure. If you have not investigated these offerings, we urge that you do so now. SELL MORE PARTS by pushing the common maintenance items and secure the business that may be going elsewhere.

MOTOR MANIFOLD GASKET SETS

These sets comprise all the inlet and exhaust-to-manifold gaskets and a carburetor-to-manifold gasket for the models indicated.

(Used on all inlet and exhaust manifold operations)

<u>Pc. No.</u>	<u>Name</u>	<u>Models</u>	<u>Suggested List Price</u>
A 98131	Motor manifold gasket set	426-33, 526-33	.71

(over)

MOTOR FRONT END GASKET SETS

These sets include the gear cover gasket, water pump body gasket, generator and support gaskets for Eights. Outlet flange gaskets are a part of the Twelve equipment.

(For motor front end operations)

<u>Pc. No.</u>	<u>Name</u>	<u>Models</u>	<u>Suggested List Price</u>
A 98162	Motor front end gasket set	All Eights from 6th thru 11th Series	.34
A 98219	" " " " "	905-6,1005-6,1107-8	.34

MOTOR CYLINDER HEAD GASKETS

(For carbon and valve operations)

These are listed merely for your convenience. When more extensive repairs are found necessary, a set of gaskets to fit the job may be located in these lists.
