

# PACKARD MOTOR CAR COMPANY

DETROIT, MICHIGAN

December 14, 1934

To PACKARD DISTRIBUTERS AND DEALERS

Subject PACKARD BODY SAFETY GLASS PAMPHLET (Revised)

TO BE NOTED AND INITIALED BY

Gentlemen:

This letter cancels and supersedes Trade Letter T-2634. The pamphlet attached replaces the Packard Body Glass Booklet released in July 1933. Please destroy all copies of this issue now in use in order to avoid confusion on prices.

It is highly important that Packard Body Safety Glass replacements be made with the same quality of material as the original equipment. If responsible service is not available in your locality we recommend that replacements be ordered direct from us.

Packard Body Safety Glass data is so arranged in the attached service pamphlet that body types appear in numerical order for the Seventh through Twelfth Series models. All the glass equipment for any body type is instantly available by reading the piece numbers across the page under the headings of each column, indicating functional names. A special loose leaf sheet showing suggested list prices and the discount designating code, accompanies each glass pamphlet. Additional copies are available at ten cents each.

Yours very truly,

PACKARD MOTOR CAR COMPANY
